# TABLE DES MATIÈRES · CONTENTS

*Vol. 19* Mars · March 1989 *No. 1*

Conclusions du Groupe d'experts *ad hoc* de l'OEPP sur le nématode du pin, Uppsala, 9–10 février 1988/Conclusions of the EPPO *ad hoc* Panel on Pine Wood Nematode, Uppsala, 9–10 February, 1988 1

MUGNIÉRY, D., PHILLIPS, M.S., RUMPENHORST, H.J., STONES, A.R., TREUR, A. & TRUDGILL, D.L. Assessment of partial resistance of potato to, and pathotype and virulence differences in, potato cyst nematodes 7

LUISONI, E. Diagnosis of viruses in ornamental plants with special reference to serological methods: new developments 27

PAUL, V.H. & SMITH, I.M. Bacterial pathogens of Gramineae: systematic review and assessment of quarantine status for the EPPO region 33

SAMSON, R., ARFI, A. & CARVIL, N. Quelques critères d'identification des *Xanthomonas campestris* responsables du dessèchement des Poaceae 43

KERSTERS, K., POT, B., HOSTE, B., GILLIS, M. & DE LEY, J. Protein electrophoresis and DNA:DNA hybridizations of xanthomonads from grasses and cereals 51

STEAD, D.E. Grouping of *Xanthomonas campestris* pathovars of cereals and grasses by fatty acid profiling 57

SLETTEN, A. Detection methods for *Xanthomonas campestris* pv. *graminis* on forage grasses 69

MASUCH, G., SCHOENE, K. & PAUL, V.H. Histological investigations on the pathogenesis of *Xanthomonas campestris* pv. *graminis* to *Lolium multiflorum* 73

DE CLEENE, M. Scanning electron microscopy of the establishment of compatible and incompatible *Xanthomonas campestris* pathovars on the leaf surface of Italian ryegrass and maize 81

SCHMIDT, D. Epidemiological aspects of bacterial wilt of fodder grasses 89

DUVEILLER, E. Research on '*Xanthomonas translucens*' of wheat and triticale at CIMMYT 97

EL-BANOBY, F.E. & RUDOLPH, K.W.E. Multiplication of *Xanthomonas campestris* pvs *secalis* and *translucens* in host and non-host plants (rye and barley) and development of water soaking 105

ALIZADEH, A. & RAHIMIAN, H. Bacterial leaf streak of Gramineae in Iran 113

TOBEN, H., MAVRIDIS, A. & RUDOLPH, K.W.E. Basal glume rot (*Pseudomonas syringae* pv. *atrofaciens*) on wheat and barley in FRG and resistance screening of wheat 119

SANDS, D.C. & FOURREST, E. *Xanthomonas campestris* pv. *translucens* in North and South America and in the Middle East 127

NOVAL, C. Maladies bactériennes des graminées en Espagne 131

PAUL, V.H. & BIRKENSTAEDT, E. Investigation of methods for testing the susceptibility of forage grasses to *Xanthomonas campestris* pv. *graminis* 137

SCHMIDT, D. Experiments with a non-pathogenic strain of *Xanthomonas campestris* pv. *graminis* 143
GONDRAN, J. & BÉTIN, M. Sensibilité de cultivars de raygrass d'Italie à *Xanthomonas campestris* pv. *graminis* 149

**Procédures OEPP de quarantaine/EPPO Quarantine Procedures**
*Phoma exigua* var. *foveata*. Inspection and test methods/Méthodes d'inspection et de test 157
Chysanthemum stunt viroid. Inspection and test methods/Méthodes d'inspection et de test 161

*Vol. 19* Juin · June 1989 *No. 2*

PAUL, V.H. & FREUDENSTEIN, K.H. Susceptibility of cultivars of Italian ryegrass to *Xanthomonas campestris* pv. *graminis* 165
LEESCH, J.G., DAVIS, R., SIMONAITIS, R.A. & DWINELL, L.D. In-transit shipboard fumigation of pine woodchips to control *Bursaphelenchus xylophilus* 173

**EPPO Guidelines for Efficacy Evaluation of Plant Protection Products—General introduction/Directives OEPP pour l'évaluation biologique des produits phytosanitaires—Introduction générale** 183

**List of EPPO guidelines for efficacy evaluation of plant protection products/Liste des directives OEPP pour l'évaluation biologique des produits phytosanitaires** 247

**Guidelines for the efficacy evaluation of plant protection products/Directives pour l'évaluation biologique des produits phytosanitaires**

No. 2 *Phytophthora infestans* on potato (revised) 249
No. 9 *Delia radicum* (revised) 257
No. 11 *Eupoecilia ambiguella & Lobesia botrana* (revised) 263
No. 15 Tetranychid mites in orchards (revised) 269
No. 136 Weeds in amenity grassland 277
No. 137 Weeds in cotton 289
No. 138 Weeds in flax and in hemp 303
No. 139 Weeds in hops 317
No. 140 Weeds in tobacco 329
No. 141 Weeds in tree and shrub nurseries 343
No. 142 Side-effects on *Encarsia formosa* 355
